How Do I Access Vocation Lessons?

At VocationLessons.com, teachers have one access code, and students have a different access code.

TEACHER VIEW VS. STUDENT VIEW

When you login using your teacher access code, then visit a lesson's web page, you will see all the teacher material and student material.

When a student logs in using the student access code, he or she sees only the pertinent student material.

Teachers can toggle between Teacher View and Student View. This is useful, for example, when displaying content for students on a computer or Smart Board.

DIOCESE OF SAGINAW ACCESS CODE

Explore and use what fits your needs - Catechists may want to use classroom options or classroom teachers may want the catechists lesson plans. You are free to use what suits your needs. All license fees have been paid by the Diocese Vocations Office in the Diocese of Saginaw.
