STATISTICAL INFORMATION

(By the term, "Household Units," it is meant what we used to designate as "families." "Households" seems a more accurate term since it includes people who live alone and other household units that might not fit the word "family." You are asked to estimate the total number of Catholic households in the parish -- registered and non-registered, active and inactive. This figure is used solely to help give a general picture of the parish. It does not affect the CSA assessment.)
